AMAZING FOLLOWERS

This update I have come across some amazing followers, the first one is Neha Rai not only is she a Basicozbizinfo Star, but she is also a professional blogger who helps people make money out of blogging and of course we all blog what we are passionate about, what could be a better way of making a life for yourself [click here](#). Not only is it important to do what your passionate about but it is equally important to find your purpose, what is it you want to achieve, to help answer this question is another amazing Basicozbizinfo Star, Kayode check out his twitter profile [click here](#). Check out some of the awesome Empathy shares and pluses on [Google Plus](#). Make sure to take up some great business opportunities and get some inspiration, till next time. Cheers! ☺

BASICOZBIZINFO EMPATHY TV

One of the very inspirational videos added to Empathy TV this update is the Jane Goodall documentary interview with the lady herself, her work is amazing, make sure to check it out, also a holocaust survivor tells of how Charlottesville reminded her of the early days of the holocaust and how her family was evacuated. Oprah makes an appearance again for Super soul Sunday videos with Tony Robins and Caroline Myss and lastly a fun video from Sigla "Only One" If you have a video you would like to add simply click on the YouTube icon below and subscribe.

CHARITY OF THE UPDATE

WHAT MAKES MY WORK UNIQUE?

By Phil Case

I was asked by someone recently how do I know what a 'Disabled' individual needs. On the 12 August 1995, I fractured my C Spine in 2 places, damaged my Brachial Plexus and fractured a bone in my wrist which was not discovered for a long time. It led to having the following:

- 1: Laminectomy C1-C6 (Exposed Spinal Cord between C2-C4 no protection if knocked Risk Paralysis from neck down)
- 2: RSD (Reflex Sympathetic Nerve Dystrophy @ Stage 4 Final Stage Classed as Palliative Care)
- 3: 2 x CVAs (Strokes)
- 4: 1 x MI (Heart Attack)
- 5: 42 x Surgical Procedures
- 6: Amputation of all Fingers on Left Hand following Gangrene.

- 7: Removal of All 3 main Nerves up to Elbow (Ulnar, Radial, Median)
- 8: Cancer of Testis (found during Inguinal Hernia surgery).
- 9: Diabetes
- 10: Non-Alcoholic Liver Disease.
- 11: Sleep Apnoea
- 12: Continued Chronic Regional Pain Syndrome.
- 13: Multiple failed surgeries.
- 14: Unable to Regulate Body Temperature.
- 15: Tendons replaced from leg.
- 16: Spasticity Left Arm.
- 17: Experimental Implant fitted between C1-C6 Spinal Cord Implant with Battery pack in Abdominal area.
- 18: Stomach Ulcer.
- 19: 2 Herniated discs L5/S1 - Extra Foraminal and Foraminal.
- 20: Seizures
- 21: Immune System Weakness.
- 22: Loss of Sensation in Lower Left arm, Groin, Left Leg and Thigh.
- 23: IBS (Irritated Bowel Syndrome).
- 24: Severe Reflux due to Hiatus Hernia.
- 25: Right Bundle Branch Block of Heart, Left Anterior Vascular Block.

This is the reason for all my work, sacrifices, successes and to give others the chances I didn't have due to lack of Technology until recent years. So, this gives a rough idea of the multiple situations I have experienced since that long day 20 years ago! I now don't think of it being a negative but a real learning experience and a real belief in Will Power. I was told I would probably live until 30 something?? I was told I could not father a child! Guess again, I have a son whom I will see finish studying, marry and hopefully get married and to be a Grandfather (not too early though I told him lol). I have adapted from being a Left-Handed individual to now doing everything with my Right hand. Of course, electronic background is something I'm glad I studied! The Most Important Thing Is COMMON SENSE to use what I can. This is what makes my work and projects so unique.

The big aspects that I should have accounted for with the fundraising campaign. As I have already not got a left testicle but don't get a prosthetic one is because I have the right testicle. Now that I will lose that too I need to at least feel like a man. Wearing shorts without any will be very noticed. So, I have the chance to get a shiny new pair. It adds weight and comfort apparently. I have the choice either during the surgery the stitch 2 identical ones in and it heals naturally. Or wait 4 weeks later and have surgery a second time to fit them. So, it would make sense to do it all in one go. The prosthetic testicles are quite expensive for what they are. But feeling like a man and looking like one down there is important. Psychologically especially.

Best wishes with health to all.

Phil
